Re: Tub Hill Mine  
Rush Valley Enterprises  
ACT/045/013 015

Gentlemen:

Please forgive the lateness of this reply to your letter of November 25, 1980. The development of this project has had its ups and downs and delays. The project is now on track again as submitted to you and we are anxious to get this answer back to you for your files.

Our replies to the four numbered items in your letter are as follows:

1. We understand and accept that everything about our project cannot be kept confidential. The words of the statute section quoted by you are sufficient for us. We will appreciate your usual conscientious efforts to avoid divulging things that can properly be kept confidential.
2. The 190 acre figure mentioned is our best estimate of the five year duration of the operation.
3. We accept that only phase II operations are permitted at this time.
4. We will come to you with notification of any operations planned on state sections as soon as such plans are formulated.

Thank you for your continuing help and interest in our project. We will gladly consult with you or reply quickly any time you need further information from us.

Very truly yours,

RUSH VALLEY ENTERPRISES, INC.

By Gary L. Schwendiman
